Specific characteristics of the material or service that limit the availability to a sole source/brand product (unique features, function of the item, etc.). Describe in detail why only this source/brand can furnish the requirements to the exclusion of other sources/brands. The Boom Assembly has a part number of 9319-D which is installed on the Aircraft Utility Crane. The part number for the Aircraft Utility Crane is 9319-010 and is identified in the NAVAIR Technical Manual 19-25G-20. FEDLOG records indicate that the Aircraft Utility Crane part number is associated with CAGE code 00994 and is Columbus Jack. *Columbus Jack is the only manufacturer to make this part. As noted below the other 2 sources identified by DLA cannot provide the part.* CAGE code 02708, AGE Logistics, does not manufacture the part anymore. (Please see attached e-mail) *CAGE code 81755, Lockheed Martin does not manufacture the part anymore either.*

The requested material or service represents the minimum requirements of the Government.

The material or service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect or interface with the existing system. N/A

A patent, copyright or proprietary data limits competition: N/A

The items are "direct replacement" parts/components for existing equipment. Provide the information about the Next Higher Assembly (NHA)/equipment which the replacement parts are going into (e.g. description, model, part number, Original Equipment Manufacturer (OEM), etc.). A/S32A-44 Aircraft Utility Crane P/N: 9319-010

Other information to support sole source/brand name sole source procurement. The rationale must then justify "either" substantial duplication of cost to the Government that is not recovered through competition or unacceptable delays in fulfilling the mission of the agency. See supporting documents of the Aircraft Utility Crane showing CAGE code associated with it. There are no other known sources that manufacture the required part to support the system.

TECHNICAL OR REQUIREMENTS CERTIFICATION

I CERTIFY THAT THE STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE/BRAND NAME SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
